SENSITIVE

GENERAL COUNSEL'S REPORT

I. INTRODUCTION

The cases listed below have been evaluated under the Enforcement Priority System ("EPS") and identified as low priority, stale, or ADR transfers. This report is submitted in order to recommend that the Commission no longer pursue these cases for the reasons noted below.

II. CASES RECOMMENDED FOR CLOSURE

**A. Cases Not Warranting Further Action Relative to Other Cases
Pending Before the Commission**

EPS was created to identify pending cases that, due to the length of their pendency in inactive status, or the lower priority of the issues raised in the matters relative to others presently pending before the Commission, do not warrant further expenditures of resources. Central Enforcement Docket ("CED") evaluates each incoming matter using Commission-approved criteria that result in a numerical rating for each case.

Closing

these cases permits the Commission to focus its limited resources on more important cases presently pending in the Enforcement docket. Based upon this review, we have identified cases that do not warrant further action relative to other pending matters. We recommend that all cases be closed.¹ Attachment 1 to this report contains a factual

¹ These cases are: RR02L-03 (15th District Democratic Party); MUR 5242 (Michigan Democratic State Central Committee); MUR 5243 (Oberweis for US Senate, Inc.); MUR 5244 (Skorski for Congress); MUR 5250 (NRCC Economic Recovery Workshop); MUR 5254 (Hampden-Sydney College); MUR 5257 (Tom Feeney); and MUR 5258 (Tom Feeney for Congress).

summary of each case recommended for closure, the case EPS rating, and the factors leading to the assignment of a low priority.

B. Stale Cases

Effective enforcement relies upon the timely pursuit of complaints and referrals to ensure compliance with the law. Investigations concerning activity more remote in time usually require a greater commitment of resources primarily because the evidence of such activity becomes more difficult to develop as it ages. Focusing investigative efforts on more recent and more significant activity also has a more positive effect on the electoral process and the regulated community. EPS provides us with the means to identify those cases that, remain unassigned for a significant period due to a lack of staff resources for an effective investigation. The utility of commencing an investigation declines as these types of cases age, until they reach a point when activation of such cases would not be an efficient use of the Commission's resources.

We have identified cases that have remained on the Central Enforcement Docket for a sufficient period of time to render them stale. We recommend that cases be closed³ and one case continued to be held open.⁴

³ These cases are: MUR 5036 (*National Education Association*); MUR 5037 (*National Education Association*); MUR 5086 (*Federation for American Immigration Reform*); and MUR 5191 (*Democratic State Central Committee*)

⁴ MUR 5042 (*DNC Services Corporation*) is closely related to MURs 4530 (*DNC*), 4531 (*DNC*), 4642 (*DNC*), and 4547 (*John Huang*) presently pending before the Commission, and dismissal at this time seems inappropriate.

Closing these cases as of this date will allow CED and the Legal Review Team the necessary time to prepare closing letters and case files for the public record.

MUR 5242

Complainant: Rusty Hills, Chair of the Michigan Republican State Central Committee

Respondents: Michigan Democratic State Central Committee and
Roger Winkelman, as Treasurer

Allegations: Complainant, Rusty Hills, Chair of the Michigan Republican State Central Committee, alleged that the Michigan Democratic State Central Committee ("Committee") failed to disclose the source of \$26,525 in "undistributed funds," which was reflected on a Schedule A of its amended 2000 30-Day Post-General Election Report. Therefore, the complainant asserted that the Committee may have violated various provisions of the Federal Election Campaign Act.

Response: The Committee responded that it made cash withdrawals from its federal account on November 5 and 6, 2000, in order to pay poll workers on election day. The Committee did not know the exact amount needed to pay the poll workers at the time of the withdrawals and, therefore, it estimated the amount to withdraw. After paying the poll workers, the Committee retained \$26,525, which it then re-deposited to its federal account and reported on a Schedule A.

This matter is less significant relative to other matters pending before the Commission.
